SUMMARY

- Full Stack Web Developer and Software Engineer Intern with hands-on experience in building secure, database-driven web applications using **PHP, MySQL, React, Node.js, and REST APIs**.
- Former **NIC Intern** who contributed to a government e-Governance system implementing authentication, authorization, and role-based access control.
- Strong interest in **Cybersecurity**, secure web development, and backend system design.

EXPERIENCE

Web Development Intern <i>National Informatics Centre (NIC), Govt. of India</i>	May 2025 – Jul 2025 <i>Anantapur, India</i>
– Developed and maintained CRUD-based modules for an e-Governance platform using PHP, MySQL, JavaScript, HTML, and CSS . – Implemented secure authentication and role-based authorization for multiple user roles. – Worked with senior engineers following government-grade security and data protection standards.	

EDUCATION

B.Tech in Computer Science <i>JNTU Anantapur</i>	Aug 2023 – Aug 2027 <i>GPA: 7.75</i>
Intermediate (XII) – MPC <i>Narayana Junior College</i>	Jun 2021 – Apr 2023 <i>Anantapur, India</i>
Class X (SSC) <i>Narayana English Medium School</i>	Jun 2020 – Apr 2021 <i>Anantapur, India</i>

PROJECTS

- Academia Authenticator (AI-Based Certificate Verification System)**
- Built an AI-powered **OCR-based certificate verification system** to detect forged or tampered academic documents.
 - Designed secure validation workflows ensuring data integrity and authenticity.
 - **Tech Stack:** Python, OCR, Backend APIs, Database Validation
- AI-Powered Raw Material Marketplace**
- Developed a full-stack **multi-vendor marketplace** supporting real-time product listings and inventory management.
 - Implemented secure order processing and API-based communication.
 - **Tech Stack:** React, Node.js, Express.js, MySQL/MongoDB
- Campus Internship & Placement Portal**
- Designed a role-based recruitment platform for students, mentors, and recruiters.
 - Implemented application tracking, approvals, and interview scheduling modules.
 - **Tech Stack:** PHP, MySQL, JavaScript

TECHNICAL SKILLS

- Languages:** JavaScript, PHP, TypeScript
- Frontend:** HTML, CSS, React
- Backend:** Node.js, Express.js, REST APIs
- Databases:** MySQL, SQL, MongoDB
- Concepts:** Authentication, Authorization, CRUD, MVC
- Tools:** Git, GitHub, Bash Scripting, Linux (basic)

CERTIFICATIONS & ACHIEVEMENTS

- Top 4% in **JEE MAINS 2024** among 1.4M candidates.
- Internship Completion Certificate — **NIC (Govt. of India)**.
- Certified in **Cybersecurity Fundamentals** — Infosys Springboard.
- Currently pursuing **SOC Analyst** certification.
